WCCMH Adult IDD Services

Saline Parent Information Event 2018

Adult Services - Who We Are

- We are the Community Mental Health (CMH) that serves adults with developmental disabilities in Washtenaw County
- We serve the Medicaid population and are considered the provider of last resort- *after all other options have been exhausted, we cannot supplant other services*

Our Service Population Includes

- Adults - 18 years and older that have a diagnosed developmental disability. This includes; A Cognitive or Physical Disability that is acquired prior to the age of 22 and is deemed to be life long, resulting in substantial functional limitations. Substantial functional limitations in 3 or more of the following areas: receptive and expressive communication; mobility; self-care; self direction; learning; economic self-sufficiency; capacity for independent living.
- Determinations for services are based on:
  - Bio psychosocial assessment,
  - Diagnosis,
  - Other factors that exist

When should you get connected with us?

- If you/your young adult is getting ready to graduate and needs supports post-graduation (skill building, supported employment, etc) - 1 year in advance.
- If you/your young adult is interested in moving out of their family home and needs supports to live independently in the community.
- If there is a need for one of the services mentioned previously (not supplanting other available services).

How to get connected

- Through your current CSTS Youth and Family case manager
- Through our ACCESS Department
  - 734-544-3050
- Appointments are scheduled 24/7
- Access triage staff will gather basic information and schedule an appointment within 14 days or sooner
- Appointments are prioritized as ***urgent, emergent or routine***
